JMIR Pediatrics and Parenting

Improving pediatric and adolescent health outcomes and empowering and educating parents.

Open access | Peer reviewed | PubMed, PubMed Central, Sherpa Romeo, DOAJ, Scopus, EBSCO/EBSCO Essentials, and the ESCI (Clarivate) indexed

Q2 Pediatrics

* Highest quartile ranking in top-ranked JCR category

JMIR Pediatrics and Parenting focuses on how technologies, medical devices, apps, engineering, and informatics applications are transforming pediatric and adolescent healthcare. *JMIR Pediatrics and Parenting* is dedicated to publishing research on their use for patient/parent education, training, counseling, behavioral interventions, preventative interventions, and clinical care for children, adolescents, or child-parent dyads. The journal recognizes the vital role of patient- and parent-centered approaches in optimizing pediatric and adolescent health outcomes in the 21st century through information and communication technologies.

As an open-access journal, *JMIR Pediatrics and Parenting* ensures its valuable research reaches a broad audience, including clinicians, patients, and parents/caregivers. *JMIR Pediatrics and Parenting* emphasizes applied science, reporting on the design and evaluation of health innovations and emerging technologies relevant to its scope. The journal publishes original research, insightful viewpoints, and comprehensive reviews, including both traditional literature reviews and specialized medical device/technology/app reviews.
