JMIR Bioinformatics and Biotechnology

Methods, web-based platforms, open data and open software tools for big data analytics, machine learning-based predictive models using genomic and imaging data, and information retrieval in biology and medicine.

Open access | Peer reviewed | PubMed Central and PubMed, Scopus, Sherpa/Romeo, DOAJ and EBSCO/EBSCO Essentials indexed

Q3 Health Informatics

* Highest quartile ranking in top-ranked JCR category

JMIR Bioinformatics and Biotechnology publishes peer-reviewed scientific research and insights on bioinformatics, genomic variation detection algorithms and tools, AI applications in genomics and pathology informatics, mathematical modeling in biological systems including drug delivery and discovery, genomic data visualization, network biology and cancer genomic data analysis. *JMIR Bioinformatics and Biotechnology* supports the development of new bioinformatics tools, computational modeling in biological disciplines, and AI-based predictive models across multiple disciplines.

Get to Know the *JMIR Bioinformatics and Biotechnology* Editorial Board

Editor in Chief

Ece D. Uzun

MS, PhD, FAMIA

Associate Professor of Pathology and Laboratory Medicine at Brown University; Director of Clinical Bioinformatics, Brown University Health; Deputy Director, Center for Clinical Cancer Informatics and Data Science (CCIDS)

Editorial Board Members

- Carol Cheung, MD, PhD, JD, FRCPC
- Joseph Finkelstein, MD, PhD, FAMIA
- Sean M. Hacking, MB, BCh, BAO
- Qianqian Song, PhD
- Aik Choon Tan, PhD
- Shulan Tian, PhD
- Alper Uzun, MS, PhD
- Huihuang Yan, PhD
- Zongliang Yue, MS, PhD

Elevate Your Impact

Are you a researcher driven to shape the future of digital health? Do you aspire to collaborate with leading minds in your field and champion the principles of open access and open science? JMIR is actively seeking individuals like you to join the editorial board.
