Advancing Digital Health & Open Science

JMIR Diabetes

Emerging technologies, medical devices, apps, sensors, and informatics to help people with diabetes.

Open access | Peer reviewed | PubMed, PubMed Central, DOAJ, Scopus and the Web of Science™ (ESCI) indexed

Q2 Health Care Science & Service

Q2 Endocrinology & Metabolism

* Highest quartile ranking in top-ranked JCR category

JMIR Diabetes is an open access PubMed/ESCI indexed journal of JMIR Publications, the leading open access publisher in health informatics. *JMIR Diabetes* focuses on technologies, medical devices, apps, engineering, informatics, and patient education for the prevention, self-management, care, and potential cure of diabetes.

JMIR Diabetes publishes original research, viewpoints, and reviews, covering wearable devices and trackers, mobile apps, glucose monitoring, telemedicine, web-based diabetes education and eLearning, innovations for patient self-management, diabetes-specific EHR improvements, clinical or consumer-focused software, diabetes epidemiology and surveillance, etc.

i As an open access journal, *JMIR Diabetes* is read by clinicians and patients alike and, like all JMIR Publications journals, has a focus on readable and applied science that reports on the design and evaluation of health innovations and emerging technologies.
