JMIR Nursing

Virtualizing care from hospital to community: Mobile health, telehealth, and digital patient care.

Open access | Peer reviewed | National Library of Medicine (NLM)/MEDLINE, PubMed, PubMed Central, DOAJ, Scopus, Sherpa/Romeo, Cumulative Index to Nursing and Allied Health Literature (CINAHL), Web of Science™ (ESCI), and the International Academy of Nursing Editors (INANE) directory of nursing journals indexed

Q1 Nursing

* Highest quartile ranking in top-ranked JCR category

JMIR Nursing publishes research on changes in the nursing field that are driven by information technology and the shift towards preventative, predictive, and personalized health and nursing care. Nursing skills are rapidly evolving and technology is virtualizing care from the hospital to the community, with a strong emphasis on mobile health, telehealth, and digital health care.

JMIR Nursing publishes advancements made by nurses in nursing informatics and clinical informatics globally. The journal highlights how nurses have been instrumental in digitizing healthcare facilities—from hospitals and long-term care homes to public health information systems and home care technologies. The journal also showcases the growing number of nurses working in virtual care and mobile health to support patients and healthcare professionals. Under the leadership of editor Professor Elizabeth Borycki, *JMIR Nursing* is committed to disseminating knowledge on how nurses leverage technology to enhance research, practice, and education, welcoming original papers, short papers, reviews, and viewpoints.
