JMIR mHealth and uHealth

Mobile and tablet apps, ubiquitous and pervasive computing, wearable computing, and domotics for health.

Open access | Peer reviewed | MEDLINE, PubMed, PubMed Central, Scopus, PsycINFO, SCIE, JCR, EBSCO/EBSCO Essentials, DOAJ, GoOA indexed

Q1 Health Care Sciences & Services

Q1 Medical Informatics

* Highest quartile ranking in top-ranked JCR category

JMIR mHealth and uHealth is a leading peer-reviewed journal and pioneer in the field of mobile and ubiquitous health. The journal publishes high-quality research on health and biomedical applications in mobile and tablet computing, pervasive and ubiquitous computing, wearable computing, and domotics. *JMIR mHealth and uHealth* publishes about new and emerging technologies for health and wellness, including technologies underlying mobile or ubiquitous health devices and sensors, as well as mobile or wearable devices for data collection or patient-generated health data, for decision support and disease monitoring in clinical settings, and for prescribable digital interventions such as digital therapeutics.

JMIR mHealth and uHealth publishes papers about a wide variety of topics, such as user perceptions of and experiences with mHealth, its use in limited-resource settings for global health applications, and its role in symptom and disease monitoring, behavior change, and prevention. The journal also publishes text-message and mobile-based interventions, the design and evaluation of mobile apps, and critical discussions on the security and privacy of mHealth and uHealth solutions.
