JMIR Publications

JMIR Bioinformatics and Biotechnology

Methods, web-based platforms, open data and open software tools for big data analytics, machine learning-based predictive models using genomic and imaging data, and information retrieval in biology and medicine.

CiteScore 4.0

Open access | Peer reviewed | PubMed Central and PubMed, Scopus, Sherpa/Romeo, DOAJ and EBSCO/EBSCO Essentials indexed

ISSN 2563-3570

JMIR Bioinformatics and Biotechnology publishes peer-reviewed scientific research and insights on bioinformatics, genomic variation detection algorithms and tools, AI applications in genomics and pathology informatics, mathematical modeling in biological systems including drug delivery and discovery, genomic data visualization, network biology and cancer genomic data analysis. *JMIR Bioinformatics and Biotechnology* supports the development of new bioinformatics tools, computational modeling in biological disciplines, and AI-based predictive models across multiple disciplines.

Get to Know the *JMIR Bioinformatics and Biotechnology* Editorial Board

Editor in Chief

Ece D. Uzun

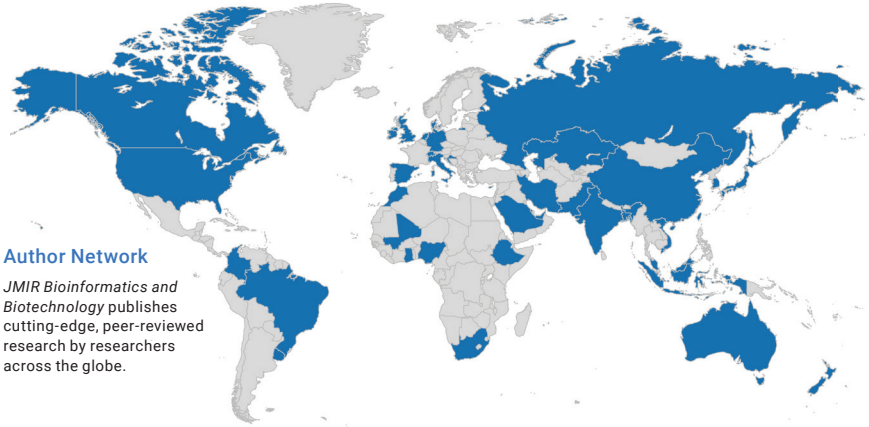

MS, PhD, FAMIA

Editorial Board Members

Sean M. Hacking | MB, BCh, BAO
Kyu Sang Han | PhD
Qianqian Song | PhD
Aik Choon Tan | PhD
Shulan Tian | PhD
Alper Uzun | MS, PhD
Huihuang Yan | PhD
Zongliang Yue | MS, PhD

Global Research Community

Authors, reviewers, and editorial leaders spanning six continents

Author Network

JMIR Bioinformatics and Biotechnology publishes cutting-edge, peer-reviewed research by researchers across the globe.

Elevate Your Impact

Are you a highly respected researcher driven to shape the future of digital health? Do you aspire to collaborate with leading minds in your field and champion the principles of open access and open science?

JMIR is actively seeking individuals like you to join the editorial board.
